

SYMPHONY SERIES[®] - CELLO

PERGOLA CEILING - CELLO

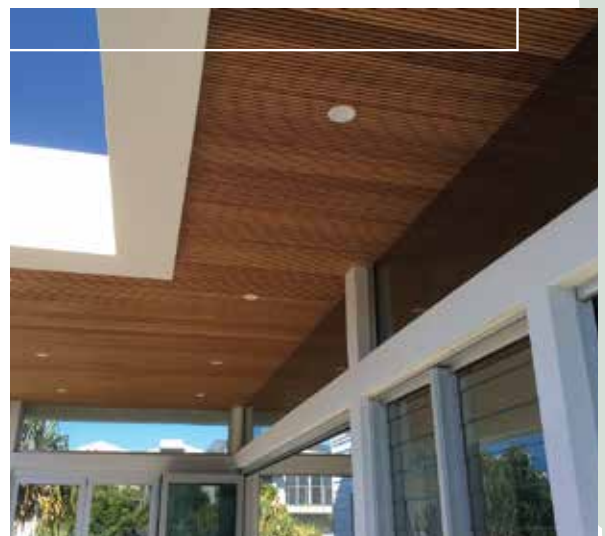

INTERIOR WALLS

Symphony Series[®] presents an innovative design of a balanced, interlaced curve that is the same visually on each side.

What is achievable is a product that is visually beautiful and exceptionally durable and long-lasting like hardwood, with the added benefits of being sustainable. It is suitable for both indoor and outdoor applications, allowing you to create an internal-external transition by selecting the same material.

BOUNDARY FENCE

SYMPHONY SERIES[®] - CELLO

Symphony Series[®] presents an innovative design of a balanced, interlaced curve that is the same visually on each side. We have created engineered bamboo from solid bamboo strips pressed together and then machined. What is achievable is a product that is visually beautiful and exceptionally durable and long-lasting like hardwood, with the added benefits of being sustainable. It is suitable for both indoor and outdoor applications, allowing you to create an internal-external transition by selecting the same material.

- Pre-oiled for outdoor weather
- Multiple applications

FINE RIBBED CLADDING CONCERTO

BAMBOO EDEN VENEERS

ACOUSTIC CLADDING OPERA

Explore the possibilities of enhancing your internal decor with our contemporary Ewa Collections.

The aim of our engineered bamboo products is to create options for an acoustic lining, create beautification in your setting and provide a natural timber look whilst maintaining the use of a sustainable resource.

SYMPHONY SERIES[®] INTERIORS

Our Engineered Interior Bamboo Cladding and Acoustic Panels are solid bamboo boards made from bamboo strips pressed together and then machined. The ribbed and holed effect enhances acoustic clarity along with a unique design.
